Introducing MVCAA Environmental Hazard Control Services

MVCAA is an EPA Certified Lead Abatement Firm.
Our Housing Department has a well established environmental division

We provide

- Lead Safe Work Practices Training*
- Lead Risk Assessments
- Lead Clearance Testing
- HEPA Vacuum Loaner Program
- Community Outreach
- Project Management

MVCAA now has two certified Lead Risk Assessors –
Gene A. Allen, Housing Director and Ryan E. Talbot, Rehab – Environmental Specialist.

Additional Services

MVCAA can offer additional services to assist your Lead Hazard Reduction Program. Through funding provided by a New York State Health Foundation grant with assistance from the University of Rochester Environmental Health Sciences Center we have expanded our HEPA Vacuum Loaner Program. Lead poisoning is a health risk for children under six years old, the age group served by Head Start. MVCAA operates 52 Head Start Classrooms in Oneida & Herkimer Counties, which gives us direct access to the families most at risk and can serve as a conduit for outreach for your program.

**Note: We are currently in the process of obtaining accreditation to teach the joint EPA-HUD Certified Renovator course. This course satisfies EPA training obligations for contractors performing work that disturbs lead-based paint in homes, child care facilities, and schools built before 1978. EPA requires that at least one Renovator from each firm complete training, and that each firm obtain a firm certification. Full details will be available in the near future*

If you have any questions as to how MVCAA can be of service please contact.
